

Be brave and use this very portfolio

Still remaining

1. Choose my unique Icons (so that not everything is copy and paste)
2. Animations for developer and email
3. Pictures for cards (\$\$\$\$\$\$\$\$\$\$\$\$\$\$ each is a thumbnail of the website screen). More in depth GD into each design (compatibility and slick look in both light and dark screens)
4. CHANGE Links (Name them something)
5. LINK ABILITIES TO Git, Sites, And others
